SUMMARY

Aspiring Java Full Stack Developer with hands-on experience building web and mobile applications through internships and personal projects. Strong foundation in Java, Spring Boot, React, and SQL, with a track record of shipping deployed, working projects. Quick to adapt to new technologies and eager to contribute in a collaborative engineering team.

TECHNICAL SKILLS

Languages: Java

Backend: Spring Boot, RESTful APIs

Frontend: React, Bootstrap, HTML5, CSS3, JavaScript

Databases: PostgreSQL, MySQL, SQL

Tools & Practices: Git, GitHub, Postman, Agile/Scrum basics

WORK EXPERIENCE

Flutter Developer Intern — Hackwit Technologies Pvt Ltd, Chennai

Jan 2023 – Feb 2024

- Built a full-featured e-commerce mobile application for sports products using Flutter, delivering clean UI layouts and smooth UX flows.
- Integrated backend REST APIs and services for real-time data handling, user authentication, and secure data exchange between the app and server.
- Designed and implemented multiple app screens and reusable UI components to ensure visual consistency across the application.
- Collaborated with backend developers to define API contracts and troubleshoot data flow issues, gaining practical exposure to full-stack integration.
- Deployed and tested the app across multiple Android devices to ensure performance and responsiveness.

PROJECTS

Employee Management System — Java Full Stack Application

Developed a full stack employee management system with a Spring Boot REST API backend, PostgreSQL/MySQL database, and a React frontend, supporting CRUD operations, form validation, and role-based views.
